IMPROVE RESPONSE TIME...

WITH CLUB CAR'S NEW TRANSPORTER AMBULANCE.

Club Car's new Fit-to-Task Transporter Ambulance's small profile and maneuverability lets the ambulance access tight, crowded spaces and expedites care.

FULLY-EQUIPPED, SAFE AND COST-EFFECTIVE SOLUTION

The Transporter Ambulance seats three and carries an adult-size stretcher. It's configured to provide everything you need for this application and reduce the risk of liability. The vehicle comes with:

- A** Custom ambulance deck weldment
- 1** Medical attendant seat
- 2** Deck-mounted medical equipment box
- 3** Floor-mounted storage box for medical equipment
- 4** Fold-down rails for patient area
- 5** Hand-carry stretcher and mounts

- B** 12-volt powerport and dual USB port

- C** Reflectors

- D** Rear fender guards

- E** Halogen headlights

Electric Models Only:

- F** Extended-range battery system

- G** Single-point watering systems for easy battery maintenance

For other configurations, ask your local Authorized Club Car Dealer about our Custom Solutions Department.

RELIABLE, RUGGED AND POWERFUL

This vehicle is built on Club Car's proven Transporter platform. It features rust-proof aircraft-grade aluminum frames that can withstand the water, chemicals and salt air often found on resorts.

The gasoline model comes equipped with a 14-hp rated single cylinder overhead cam engine with electronic fuel

injection that gets up to twice the mileage of some competitive vehicles, yet delivers more power and torque.

The electric model is powered by 48-volt system and 500-amp DC motor controllers with controlled downhill ability, zero-speed detect to prevent roll away, regenerative braking, hand-held speed programmability and diagnostic capabilities. Smart onboard chargers issue alerts to prevent common user errors, and reel retractors allow for "opportunity charging."

The vehicle comes standard with white body and white seats. Optional colors are available.
